

Connection interface type IST for heat and cooling meter

for measuring capsule compact heat meter zelsius® C5 CMF

Connection interface (ASS, also referred to as manifold body EAS), according to DIN EN 14154-2 resp. DIN EN ISO 4064-4 only requires positioning upon initial installation, and then remains within the heating system. This process makes heat meters easier to replace and helps to save on exchange costs.

Connection interface (ASS)

Article	Nominal size q_p (m ³ /h)	Overall length (mm)	Threaded connection	Order no.
Connection interface for measuring capsule 2"	q_p 0.6 and 1.5	110	¾" AG /18 mm	112491
Connection interface for measuring capsule 2"	q_p 0.6 and 1.5	130	¾" AG /22 mm	112492
Connection interface for measuring capsule 2"	$q_3 = 2.5$	130	1" AG /22 mm	118565
